about me.

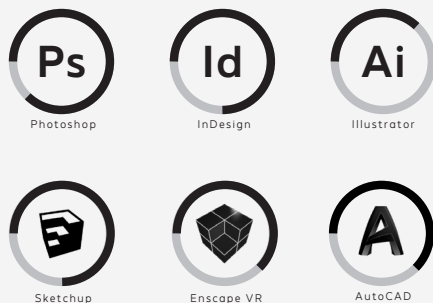

An **interior designer** interested in storytelling through design, creating a strong visual identity for each project using my international upbringing and experience as a basis for my inspiration. Experienced in presenting to and maintaining a relationship with a variety of clients.

Proficiencies include working throughout the full design process: design conceptualization, space planning, realistic 3D rendered visualizations, presentations, review of preliminary and shop drawings, FF&E + material boards, budget management, and site management through project completion.

Languages: English (Native), Italian (Intermediate)

skills.

experience.

- 2020-2021** ● **senior interior designer / project manager**
 Megan Grehl Studio - Miami, FL
 - Relocated to Miami to manage a 4 bed, 3 bath, high-end residential project located in Downtown Miami, while collaborating with team on other high end residential projects located in New York
 - Managed Miami project from Concept Design to Construction, producing design presentations, custom millwork designs, mood boards, FF+E, etc
 - Produced budget proposals, financial standings, and timelines
 - Generated a complete VR 3D model of the space using Sketchup and Enscape
 - Managed construction on site; coordinating with contractor and his subs, architect, expeditor, etc
 - Communicated with client directly, presenting all design progress, and coordinating client decisions with team and contractor
- 2019-2020** ● **interior designer**
 Megan Grehl Studio - New York City, NY
 - Managed a restaurant design seating 200, while collaborating with team on high end residential projects simultaneously.
 - Worked in all design stages, from concept design to project completion
 - Produced 3D visualizations using Sketchup with Vray and Enscape for client presentations.
 - Generated FF&E Schedules, coordinated with vendors and millworkers, produced material boards for client review
 - Produced a full ID drawing set for the project, collaborated with architect to ensure all design details were included in CD set
 - Responsible for budgeting, scheduling, project bidding, and value engineering
- 2017-2019** ● **junior interior designer**
 H2R Design - Dubai, UAE
 - Worked in all design stages, from concept design to project completion on a variety of commercial/hospitality projects
 - Worked as part of a team on over 25 projects. Personally completed 3 projects from start to finish, including on-site visits and project management.
 - Liased with suppliers on FF&E and material selection
 - Designed bespoke furniture and lighting for commercial spaces.
 - Prepared technical drawings in Autocad, and reviewed revised shop drawings.
 - Organized and attended client and contractor meetings throughout project progression, working with clients such as Emaar and Hilal Group.
- 2016** ● **intern - interior design**
 Pavart - Rome, Italy
 - Developed overall design skills, while learning more about industry standards and processes.
 - Attended client meetings, improving proficiency in Italian language.
 - Assisted in projects through design research, spatial planning, producing 2D drawings in AutoCAD, material and furniture selection.
 - Produced 3D visualizations, including a short animation, in Cinema 4D (Vray)

education.

- 2013-2017** ● **accademia italiana a.m.d.**
 Bachelor of Arts (Hons) in Interior and Product Design
 (awarded by Nottingham Trent University and the Italian Ministry of Education)
